

DXC Uptime™ Marketplace for Dell Peripherals

Deliver a seamless user experience that boosts employee productivity

Streamline ordering of Dell products, saving time and money

Centralize buying for ease and convenience

Enterprises can now provide employees with a consumer-like experience when purchasing Dell hardware, IT peripherals and accessories. DXC Uptime Marketplace for Dell Peripherals is a centralized hub for streamlined purchasing of standardized, pretested products with device compatibility assured. DXC Technology is the first to partner with Dell Technologies to provide an automated solution for the delivery of Dell peripherals worldwide.

DXC simplifies the process of obtaining, managing and maintaining IT peripherals via an intuitive, user-friendly interface. Automated self-service capabilities eliminate the frustration employees have with IT procurement services, and result in time and cost savings as well as improved resource allocation. Users have 24x7 access on any device to a robust catalog of Dell peripherals that can be delivered quickly to any address across the globe.

Dell products that have been tested for compatibility with most desktops and laptops from any vendor can be purchased directly by employees with just a few clicks. DXC Uptime Marketplace

standardizes the approval process, consolidates reporting and delivers advanced analytics for consistent governance. Among the many benefits, the provision of an approved company catalog of Dell hardware and IT peripherals reduces the risk of shadow IT purchases.

Longtime partnership delivers latest technology at competitive prices

The strategic partnership between DXC and Dell spans multiple decades. As a global company with Dell Titanium Black Partner status, DXC offers competitive pricing for Dell products and priority access to Dell's latest and most innovative technology. The partnership combines DXC's expertise in designing, building and delivering agile, scalable infrastructure with Dell's cutting-edge portfolio to deliver and manage on-time, high-performance Dell peripherals for enterprises worldwide.

DXC Uptime Marketplace for Dell Peripherals is the optimal solution for enterprises looking for an efficient, cost-effective way to manage their supply chains for IT peripherals. The solution provides the necessary OEM relationships, digital infrastructure and global capabilities to deliver improved
